

PROFILE

Strategy professional with 4+ years across Singapore, Hong Kong, Malaysia, and Australia in digital banking, OTT media, and consulting, turning ambiguous problems into decision-ready recommendations for executives and Boards. Track record includes financial models and business cases behind multi-million-dollar content and partnership investments, regional lending products launched from zero, and end-to-end product delivery in regulated environments. Completed a Master of Data Science to pair commercial judgement with technical depth in data science and AI. Singapore Permanent Resident with no work sponsorship required, available immediately.

- **Data & Technical:** Python, SQL, R, PySpark/Apache Spark, Machine Learning, Power Query, Advanced Excel, Tableau, Power BI, R Shiny
- **Language:** English (Native), Mandarin (Native), Cantonese (Fluent), Malay (Fluent), Indonesian (Professional)

EDUCATION

Monash University, Melbourne (Australia)

Jul 2024 – Jun 2026

Master of Data Science (GPA 3.8/4.0; Monash Study Grant, A\$10,000)

Final Year Project (2026): Team lead and data scientist for rutAble, an accessibility planning tool for NDIS support workers in Melbourne CBD; built Python pipelines integrating 7 City of Melbourne datasets (~1.5M records) and designed its profile-based comfort scoring model

The Hong Kong University of Science and Technology (Hong Kong)

Sep 2017 – Jun 2021

BSc in Risk Management and Business Intelligence (First Class Honours)

Awards: Malaysia Chamber of Commerce (Hong Kong & Macau) Student Trust Fund (HK\$160,000)

PROFESSIONAL EXPERIENCE

Program Analyst, Flexiq (Melbourne, Australia)

Feb 2026 – Present

Strategy and analytics consulting across Australian energy sector clients

- Diagnosed delivery bottlenecks across energy-sector program engagements and translated findings into a KPI framework client leadership now uses to prioritise remediation, shifting review conversations from anecdote to evidence.
- Rebuilt client reporting from manual monthly Excel into automated Tableau and Power BI pipelines ingesting directly from source systems using Python and Power Query, saving ~32 consultant workdays (~A\$40K in delivery cost) annually with on-demand visibility for senior client stakeholders.

Senior Business Strategy & Insights Analyst, Viu PCCW Media Group (Singapore)

May 2023 – Jun 2024

CEO office of PCCW's APAC OTT platform, driving commercial strategy across advertising, subscriptions, content, and live events

- Designed a title-level content return index combining viewership, ad, and subscription revenue with content cost, aligned the methodology with market leads, and partnered with the data team to automate it from an Excel model into a Snowflake pipeline dashboard; adopted firm-wide for budget allocation and per-title breakeven reviews.
- Built the revenue and scenario models behind business cases for content investments, market entry analysis (Vietnam, Cambodia), and partnership deals, including multi-million-dollar syndicated acquisitions; co-built the company-wide business case template, standardising deal logic with assumptions linked to a central data source, now used by all APAC teams.
- Prepared the monthly commercial story for senior management and the Board, using P&L driver and competitor analysis to surface margin risks early and frame the options leadership decided between.

Regional Project Management Office Associate, SeaMoney Consulting (Singapore)

Oct 2022 – Apr 2023

Regional strategy consulting arm of Sea Group digital finance, focus on digital lending portfolio oversight across SEA

- Launched the bank's loan transfer product from scratch, onboarding 5+ partner banks across Indonesia and the Philippines, and drove pay later and credit card products from zero to launch, opening revenue streams beyond the core cash loan business for a digital bank disbursing US\$1B+ in loans annually.
- Identified SME lending as an underserved gap across Indonesia and the Philippines and delivered the data-backed recommendations that shaped regional commercial lending expansion, building on the existing cash loan footprint.

Product Management Associate, SeaMoney (Singapore)

Jul 2021 – Sep 2022

Sea Group digital banking venture; direct lending, KYC, and strategic partner integrations

- Brought the digital bank's direct lending launch and loan channelling integrations with external partners live front-to-back, leading business, product, engineering, credit risk, operations, finance, and compliance teams across regional and local markets.
- Managed the digital bank's KYC product across its full lifecycle, cutting onboarding time by 30% across a funnel screening ~1 million loan applications daily, protecting loan volume within regulatory requirements.

Summer Analyst, IB APAC COO (Global Banking), UBS (Hong Kong)

Jul 2020 – Aug 2020

- Championed the COVID-era cloud migration that moved 50% of trade-floor bankers onto cloud in two weeks, resolving IT-business adoption roadblocks, and built an ML employee-clustering model shaping the firm-wide agile working roadmap.

Summer Intern Consultant, Mastercard Advisors (Kuala Lumpur, Malaysia)

Jul 2019 – Aug 2019

- Benchmarked Malaysia's commercial credit card landscape for a bank client pursuing a 50k SME card issuance target and built an Excel VBA sales toolkit that streamlined outbound callers' application and review workflow.

AWARDS & ACTIVITIES

- Project Manager, 180 Degrees Consulting HKUST, 2019–20: led 5 student consultants advising a local NGO on its flagship fundraiser.
- Student Volunteer, HKUST Connect service trip (Jiangxi, China), 2017: teaching and home visits for left-behind children.
- First Runner-up, Indonesia Investment Case Competition (2019); Finalist, AlphaSights Hong Kong Case Competition (2019).
- Personal projects (GitHub): AI-powered CV screening web app (co-building); Gemini-powered Telegram bots for expense and calorie tracking; R Shiny migration dashboard; Spark and Kafka energy demand pipeline; 4.8M-record property market analysis.
- Interests: tennis (university club, Melbourne) and trekking.
